

Workshop

Philosophical Challenges of Modern Biology

2nd RUB-Workshop

History and Philosophy of the Life Sciences

Monday, 29. Oct. 2012, 14:15-19:30

Building FNO 01/117 (IGSN)

Lecture

Giuseppe Testa

*Head, Laboratory of Stem Cell Epigenetics
Institute of Oncology, Milan*

Genome vs Epigenome:

*Disease Modeling and the Realignment
of the Normal and the Pathological*

This workshop will bring together researchers in (epi-)genomics and philosophers of biology discussing issues like reductionism, modularity, and modeling in the life sciences. The talks are grouped around a lecture given by Giuseppe Testa.

Further speakers:

- Stephan Kopsieker (Bielefeld University)
- Jan Baedke (Ruhr University Bochum)
- Fabian Lausen (Bielefeld University)
- Dan Brooks (Bielefeld University)

Organizer: Mercator Research Group »Spaces of Anthropological Knowledge« & Institute for Philosophy I (Christina Brandt und Jan Baedke)
